## HEAL Collaborative Boiler Plate

HEAL Collaborative is a nonprofit organization focused on Health Education Advocacy and Learning. Our community-based service is simply to improve the health of our communities through education and meaningful partnerships with faith-based organizations by leveraging culturally relevant health education resources to help the Black community: 1. Learn about healthy lifestyles, wellness, chronic disease prevention and management through workshops and training; 2. Navigate local healthcare systems and access the latest medical treatments and technologies; 3. Learn about early detection, treatment options, health screenings, and clinical trial enrollment. Additionally, we advocate for improvements in healthcare quality, accessibility, and affordability for people of color. This advocacy includes outreach to policymakers and medical leaders.
